An Important Guide to
32 Years of Weather Information

Cumulative Index to Weatherwise

Volumes 1-31
1948-1978

For the first time, you can have instant access to the valuable material contained in back issues of WEATHERWISE. A new one volume index is now available with a complete listing of all articles in volumes 1-31 by subject and author.

Printed in 7 x 10 magazine format, this index can be bound with back issues to provide much needed access to research material and classic weather information.
